

This topographic map illustrates the collective sewerage catchment area for the Armagnac Adour community. The boundary of the catchment area is delineated by a thick red line, which follows the natural contours of the terrain and major roads. Within this boundary, several urban areas are highlighted in solid blue, including the towns of Nérac, Marçay, and others. The map features detailed topographic information such as contour lines, rivers, and smaller roads. A legend in the bottom-left corner provides the title and scale of the map.

Communauté de communes Armagnac Adour
Limite des zonage d'assainissement collectif

Décembre 2017 échelle : 1cm = 800 m

This topographic map illustrates the collective sewerage catchment area for the Armagnac Adour community. The boundary of the catchment area is delineated by a thick red line, which follows the natural contours of the terrain, including the Adour river valley and surrounding hills. Urban areas, where the sewerage network is concentrated, are shaded in blue. These urban centers include Nérac, Marmande, and several smaller towns like Nogaro and Miramont. The map also shows the Adour river and its tributaries, as well as various smaller lakes and ponds. The terrain is represented by green and brown shading, indicating different elevations and vegetation. A scale bar at the bottom left indicates a scale of 1 cm = 800 m, and the date 'Décembre 2017' is noted next to it.
